design STUDIO TECNICO METAL LUX

La forma perfetta della sfera che ritorna ed impone una logica ferrea e convincente, chiaramente avvertibile in tutte le funzioni in cui è inserita. Armonizzata e domata dalle linee ardite di una struttura metallica, la sfera si impone come diffusore ideale di orizzonti luminosi senza limite. Con accorti interventi strutturali GLOBAL può raggiungere possenti dimensioni per megaspazi di aree comuni, dove emerge con la travolgente eleganza di un contrappunto di luce viva e trame metalliche.

A glorious comeback of the sphere: the shape of perfection, imposing a strong and convincing logic wherever it is installed. The strong lines of metal structure conveys a sense of contemporary elegance. With skilled structural interventions GLOBAL is able to reach dramatic dimensions to cover large spaces of common areas for hospitality business.

DOLCE
design ELVIO LUNIAN

Una composizione che disegna nello spazio eleganti tracce luminose. Le linee severe della montatura sono aggraziate dalla melodia avvolgente emanata dai diffusori in vetro soffiato. Le forme bizzarre di sospensioni e delle plafoniere imprimono all'ambiente una nota disincantata di leggerezza.

A fairy composition that marks the space with elegant trails of lights. The affirmative lines of metal structure are gracefully embedded in a warm and cultivated atmosphere suggested by blown glass diffusers. From the bizarre shapes of ceiling and hanging sets emerge notes of lightness.
